Everyday Advice to Save Energy ...for **FREE!**

It's easy to conserve energy around your home — with these five strategies to conserve energy and money — at no cost:

- ▶ **Close your kitchen vent, fireplace damper and closet doors** when not in use.
- ▶ **Remove window a/c units in the fall.**
- ▶ **Turn your thermostat back 5 degrees when not at home.** (It can save you about 5% on your annual heating bill!)
- ▶ **Don't let furniture and rugs** block baseboard outlets.
- ▶ **Open curtains and blinds** to let the sun naturally warm your home.

STRATEGIES TO EASE TODAY'S HIGH ENERGY PRICES.

6 Proven Strategies to Help You Save on Your Oilheat Bills.

You don't need to be an economist to know that heating oil prices — as well as those of all energy sources across the board — are significantly higher than they were this time last year, due to a number of factors including increases in energy demand around the globe.

Fortunately, Oilheat is a fuel that comes with a host of value-added services, and we are the #1 local company to deliver them to you.

Thanks to our **VALUE-ADDED FULL SERVICE**, here are 6 basic moves to get the most out of every drop of heating oil:

- 1. COMPREHENSIVE SERVICE PLANS** help ensure that you're achieving maximum comfort system efficiency — while shielding you from expensive, out-of-pocket costs.
- 2. CONSERVATION** has never been so important. We can advise you on a variety of low- and no-cost ways to reduce your energy consumption by 10 to 50%.*
- 3. STATE-OF-THE-ART EQUIPMENT** can help you cut energy costs while keeping our planet clean. We continually seek out the very best heating and hot water making systems to provide you with increased comfort and savings of as much as 40% off your fuel bills.**
- 4. OUR CERTIFIED TECHNICIANS** are the best in the business — trained and retrained in the latest comfort equipment and installation techniques. They not only "know their stuff," they know which products best meet your unique needs.

- 5. INNOVATIVE ENERGY-SAVING DEVICES** maximize fuel usage. For example, a programmable thermostat automatically reduces temperature settings — for significant savings off your annual heating bill.
- 6. CONVENIENT BUDGET PLANS** keep payments stable. One low monthly payment can handle your energy bills and make managing your household expenses easier.
