

Price Protection

No more unpredictable fuel price increases with our Price Protection Plans!

It's a fact of life: Fuel prices are subject to things like supply and demand and changing world events. And while we can neither predict nor control these things, we can offer you the best way to protect your family budget. Our Price Protection Plans can't be beat when it comes to helping you manage your energy bills.

We offer two great Plans:

► Price Cap

When you enroll in this Plan, you'll agree to a "price cap" for the entire heating season. You'll have the security you want because you will **never pay more than the capped price for heating fuel**. And if prices go down, your delivered price will also fall!

We've created two great Plans to fit your family's budget.

► Pre-Buy

This Plan enables you to **purchase fuel in advance of the heating season at the current price**. There is a minimum purchase required.

Enrollment in both Plans is **FREE** — there is no additional cost to you!

Please call us for more details of our Price Protection Plans. It's the best way we know to help you "lock in" your fuel price so you'll never have to worry about price increases.
